

Local plan for Yuleba and District

This local community plan is a direction-setting document with objectives setting out “what” the district communities, businesses, government agencies and Council propose for Yuleba and District.

Action plans will set out “how” the objectives are to be achieved. They are separate documents. Action plans are prepared when people, organisations, businesses or governments are ready to provide leadership and allocates resources to a project.

The objectives in the local plan are to be read in conjunction with Maranoa region-wide objectives (refer to the Maranoa region-wide strategies for Business & Industry, Tourism, Arts & Culture, Sport & Recreation and community lifestyle in the Maranoa Economic and Community Plan).

Because the objectives in this local plan have community support, the objectives can be used by local organisations and businesses to support applications for grants and other funding.

Adopted on 26 July 2018 by Maranoa Regional Council on behalf of its regional and local communities.
Council Resolution No. GM/07.2018/01

Local plan for Yuleba and District

The Yuleba and district economy is based on its traditional agricultural beef and sheep industries, as well as grain production, and more recently coal seam gas production. Tourism has growth potential, as part of a visitor economy that encompasses local history, Indigenous culture, sporting events, and recreational activities.

Features of Yuleba and the surrounding district are its agricultural landscapes and state forests; Judds Lagoon, Yuleba's Garth Cox Park precinct and War Memorial, Yuleba Memorial Hall and mural, bushranger stories, and the Cobb & Co history.

Yuleba has strong links with Cobb & Co Coach Service, highlighted by the Cobb & Co murals in Yuleba and the Cobb & Co Way connecting Yuleba to Surat along the original coach route. In 1924, Yuleba was the destination of the last Cobb & Co coach service run in Australia, the anniversary of which is celebrated biennially. Still drivable in today's vehicles, the Cobb & Co route contains the Maryanne rock hunters' site and the original wooden corduroys to get the coaches across soft ground. For industrial tourism, gas industry infrastructure, particularly the compressor station at Reedy Creek, is impressive.

Yuleba and its district have a rich history with Indigenous community connections. Located along the Cobb & Co Way, the Native Wells once supplied good, sweet water to the local Aboriginal tribe, the Mandandanji people, and is a great place for tourists to take a rest stop.

Yuleba is a service and convenience centre and social hub for agriculture and resource industries in the surrounding district. The services provided in Yuleba reflect its 45 minute drive time from the Maranoa regional centre of Roma. The town is an accommodation base for the surrounding district and visitors.

Yuleba industry is centred on sawmilling and supporting the surrounding gas resource projects. The district contains a number of quarries, mining a high grade silica deposit, as well as producing gravel and decorative stone aggregates. Heavy vehicle access through the town will require future road changes.

Judds Lagoon is a recreational attraction for residents from surrounding districts and a tourism anchor for visitors. Tourism will be strengthened by further town and district enhancements directed towards tourists travelling the Warrego Highway, in particular, the proposed Cobb & Co Park adjacent to the highway, and by greater connections between Yuleba and other tourist attractions and activities in the Maranoa.

Many of the broader aims for the Yuleba and district local community are set out in the Maranoa-wide objectives contained in the Maranoa Economic and Community Plan. This Yuleba and district local plan sets out those local objectives which are specific to the Yuleba and district community. These local objectives provide the framework for local action plans.
